TARIFFS

Tariffs which show rates, rules and regulations for telephone service and facilities are on file with the North Carolina Utilities Commission, and are available for public inspection at our business office.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number, and the Company reserves the right to change the call number or the central office designation associated with such number whenever it is deemed desirable in the conduct of its business.

MAINTENANCE

All ordinary expense of maintenance and repair, unless otherwise specified in the Company's schedules, is to be borne by the Company. If any instrument or piece of apparatus is destroyed or injured, otherwise than by unavoidable accident, the subscriber is to pay the actual cost of replacing or restoring the same to its original condition.

ATTACHMENTS TO TELEPHONES

To render satisfactory service, it is important that the Telephone Company furnish and maintain all apparatus and equipment connected with its lines. Except as provided in the tariffs, no line, instrument, appliance or apparatus not furnished by the Telephone Company shall be connected with, atached to or in any way used in connection with facilities of the Telephone Company.

INTERRUPTION OF SERVICE

RESPONSIBILITY FOR MESSAGES

Subscribers are responsible for all charges for messages originating from or reversed to their telephones.

TELEPHONE DIRECTORIES

Loss of time and inconvenience by calling wrong numbers can be avoided by consulting the current directory before placing a call.

Between directory issues certain numbers do not appear in the current directory due to changes and new installations. These numbers may be secured by calling "Information".

Telephone Directories distributed from time to time by the Telephone Company remain the property of the Telephone Company, shall not be mutilated, and shall be surrendered upon request or upon delivery of the subsequent issue. No binder, holder, insert, auxiliary cover or attachment of any kind not furnished by the Telephone Company shall be attached to or used with the Directories owned by the Telephone Company, except that this prohibition shall not apply to a subscriber-provided binder, holder, insert or auxiliary cover which contains no advertising, and which is not so attached as to impede reference to essential service information or otherwise interfere with service.

Every effort is made to have listings absolutely correct. However, this Company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

TELEGRAMS BY TELEPHONE

Telegrams may be transmitted to and received from the telegraph office by telephone. To send a telegram or cablegram, call Western Union Telegraph Company, 883-3291. By arrangements with the Telegraph Company, any telephone subscriber may have charges for messages received or sent by telegraph charged to his telephone and collected with his telephone bill.

USE OF RESIDENCE TELEPHONES FOR BUSINESS PURPOSES

Residence Telephones are installed with the understanding that they will be used for normal social or domestic purposes.

A Residence Telephone will be changed to business service, if used primarily or substantially for business purposes, or if the residence telephone number is advertised in connection with the sale of products or services, and the subscriber has no business service elsewhere within our system.

▶Dial "OPERATOR" immediately and tell her what happened. She will make sure you aren't charged for the call.

you will not be charged

▶If you hang up before you dial the complete number.

▶If the telephone number you dial is busy and does not answer.

if you need assistance

Dial "OPERATOR". She will be glad to help you.

area codes speed your long distance calls

The U. S. and Canada are divided into more than 120 telephone areas. Each area has a 3 figure area code. Your area code is 704 (see map). The area code of the telephone you are calling should be dialed or given to the operator if it is different from the area code of the telephone you are using. It should not be used if it is the same. (When placing call with operator, say, for example, "I want area code 311-555-2368.) When you give someone your telephone number, include your area code if he needs it to return your call. A list of selected area codes is on pages 5-9. Area codes for other places may be obtained from the OPERATOR.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is part of the miracle that is done so swiftly, so easily and so cheaply.

Have the right number when you call. It's natural to trust to memory —but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number — won't you look it up in the telephone directory?
